CNC TURNED PARTS

Our CNC Machining service includes CNC turning and caters for a varied range of project type. The CNC turning machinery we employ allows us to manufacture turned parts and components in a range of material grades - both metal and plastic - low to medium volume.

CNC MILLING

Our ongoing investment into the newest technology enables us to offer CNC Milling via our facility in Wells, Somerset. Amongst our technology is the very well equipped Hurco VM20i 3-Axis Machining Centre; allowing efficient productivity whilst maintaining superb attention to detail.

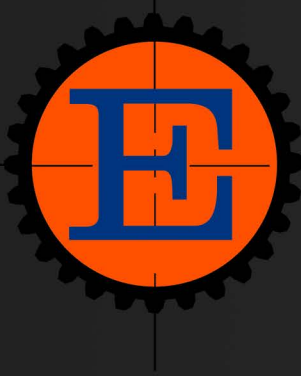

FABRICATION AND WELDING

Elphis Engineering have fabrication capabilities including MIG, TIG and MMA welding of steel, stainless steel and aluminium. We have a large range of welding and fabrication technology that covers most requirements.

ALL SERVICES

**CNC TURNED PARTS • CNC MILLING • CAD DESIGN • TRADITIONAL MANUAL MACHINING • REVERSE ENGINEERING
PRODUCTIVITY / RELIABILITY IMPROVEMENT • MODIFICATION • REPAIRS • FABRICATION AND WELDING
INDUSTRIAL GEARBOX & PUMP REPAIR & OVERHAUL • HYDRAULIC RAMS • BEARINGS & POWER TRANSMISSIONS**
